

Project Saarthi

Reaching out to the Unreachable

About

NSS SCE
SCHOOL OF COMPUTER ENGINEERING

- ☼ Saarthi is a project under the aegis of NSS SCE-KIIT.
- ☼ We intend to work towards the welfare and upliftment of the specially-abled people.
- ☼ To achieve our objectives efficiently, we collaborate with other projects and hence increase our reach.

Objective

- ☼ Project Saarthi ensures that specially abled children should have a new outlook towards life.
- ☼ We believe in selfless service to help them in all round personality development.
- ☼ Our Motto is to bring them to one stage where they can get equal opportunities and have a great future.

Procedure

- ⊗ Pre-COVID times, we visited schools and organized lively activities to provide children a comfortable environment.
- ⊗ To adapt to the 'new normal', we spread awareness through virtual platforms in the form of engaging content.
- ⊗ We devote as much of our quality time as we can in serving for the good cause.

Outcome

- ⊗ Project Saarthi creates a welcoming and comfortable environment for specially-abled children.
- ⊗ All the organizations that our volunteers have visited so far have been very supportive and accepting of what we do.
- ⊗ By instilling a positive attitude and happiness in them, we get to see a smile on their face which is the most satisfying outcome.

Target Audience

- More than 2 crore people in our country are living with some form of disability and which hinders their normal life.
- Being differently-abled brings with it innumerable challenges, the biggest being facing the social and physical boundaries set up by the society.
- NSS Saarthi focuses on empowering these children and encourages support for their dignity, rights, and well-being.

Volunteer's Speak

Being a part of NSS Saarthi impacts your social sphere as well as your personal sphere.
Hear from one of our volunteers...

Content Writer, NSS Saarthi

Volunteer's Speak

Being a part of the team brings with it ups and downs which one has to experience;
Let's see one of our volunteer's take on it...

Pranjaleena Dash,
Volunteer, NSS Saarthi

The 'New Normal'

- ⊗ During the COVID-19 crisis, Project SAARTHI took the initiative to raise awareness about specially-abled people via videos and Instagram posts.
- ⊗ We also tried to draw attention towards other important aspects like "personal hygiene" and "the unsung heroes during COVID".
